THEPORTED SPECIALLY FOR THE STAR. DAYTON, RY .- Has the introple Marshal Gerline caught that belilgerent youth yet? The last seen of the youth he was hoofing it through the brick-yard, his coat-tail swung to the breeze, and Gealine in hot pursuit, with a pistol at full cock. Soon after two shots were heard in that direction. The offense of the boy is not definitely ascertained, but he didn't propose to go to the "caboose", without a warrant, hence the leg bail. All this at a time yesterday afternoon when peace-loving citizens were at their devotions.

LUDLOW, KY .- What is known here as the Incline Plane railway, a branch of the Great C. S. R. R., is fast nearing its completion.

Our Public Schools were never in a more flourishing condition than at the present time; from all we can hear the present management gives the utmost satisfaction, which speaks well for the principal, Miss Fairclough, and her able assistants.

There are at present a great many good houses for rent in this city, and yet we hear nothing of the onward strides of the once tamous "Ludlew Street Railroad," that would be likely to offer facilities to parties wishing homes in this beautiful fittle nock. A foun noise at a few public meetings and a street failroad on paper is not the occommodations that such tenants as are wanted here are likely to accept.

CAMBBIDGE CITY, IND.—Cambridge

CAMBRIDGE CITY, IND .- Cambridge is really a junction city, and certainly has advantages as a shipping point and in lumber, &c., that ought to recommend it highly to enterprising manufacturers desiring a good location. Perhaps her citizens have not realized their oppor-

DAYTON, O., Sept. 20. During the past week the Young Men's Christian Association of this city has held daily religious services in a tent pitched in the Court-house yard. Beneath this ample canvas an audience of twelve hundred can be seated. At the evening services the tent is crowded, and during the day the audiences are large. Mesers. Stooking and diences are large. Messrs. Stocking and Sheaf, of Cleveland; Dr. Munhall, of Indianapolis; Rev. A. S. Taggert, of Pittsburg, and the clergy of the city, have officiated with great acceptance. On Saturday afternoon the tent was well filled by an audience of youth, and a sermon on the text, "Teach me thy way, O Lord, and lead me in a plain path, because of mine enemies," R. 27, 11, was preached by Rev. B. W. Chidlaw, of Cincinnati.

The attractions for this week will be the flower-days of Tuesday and Friday, the latter promising to be the finest and largest display of the kind ever seen, not only in this country but probably in the world; it being found necessary to erect 5,000 square leet of table to accommodate all the applications for space.

Probably the most attractive feature of the Ladley Department is the display of sewing machines, which extends almost around the cultre hall, including the celebrated Wheeler & Wilson, the Remington, the Singer, and many others of hardly less note. The display of the Singer Manufacturing Company is very fine. They are exhibiting four different kinds of machines, some of which are entirely new and possess features which are worthy of notice. Then there is what they call the "Two Needle Machine," for making two parallel rows of stitching at the same time. The needles are adjustable so that the space between the stitching can be regulated to suit the work. This machine is assigned for staying seams of all descriptions, and is used particularly by shoe and hat and cap manufacturers.
